COMPLETE BOILER ROOM SOLUTIONS

Boiler News

Volume 37

June 2014

You're Invited to an Open House

Waterloo Manufacturing will be hosting an
Open House event.

Thursday, September 11, 2014

**Cleaver Brooks Manufacturing Facility
161 Lorne Ave. W., Stratford, ON**

8 am - 1 pm

Refreshments/Lunch will be available

**RSVP by August 28 to Donna McKay
Tel: 519-884-0600 ext. 221
Toll Free: 1-800-265-8809
Email: donnamckay@watmfg.com**

Advanced Control Demo's on display at the Open House will include;

Boiler Control and Simulation

For your new boiler or retrofit on your existing boiler.

Hawk 4000 - Allen Bradley PLC based boiler control system for complete and customizable boiler control.

Hawk 1000 - Allen Bradley PLC based boiler control system for users requiring an off the shelf solution for Parallel Positioning, O2 trim and VFD.

FARC - Dedicated controller for parallel positioning. Servo control of air, multiple fuels and FGR.

ClearFire Boiler Control and Simulation

Falcon - Dedicated controller used on all of our ClearFire boiler product line. Includes 6" colour touch screen operator interface. Standard on all our ClearFire Boiler products.

HSC - Hydronic System Controller. See this simulation of complete control of your Hybrid Hydronic System including boiler selection and firing rate, primary and secondary loop pumps, valves and dampers

Remote Monitoring and Data Logging

Premium Remote Monitoring and Data Logging - Webserver based data collection and live display of boiler status for boilers equipped with our Hawk Boiler Controls.

Universal Remote Monitoring and Data Logging - Webserver based data collection and live display of boiler room hardwired instrumentation on non Hawk equipped boilers.

Packaged Water System Control and Simulation.

ADAC - Advanced Deaerator Control - Allen Bradley PLC based Deaerator and Surge Tank control of multiple pumps, levels and pressure.

LCS-150e.1 - Intermediate Level control and alarm for your Deaerator, Condensate Recovery, Feedwater or Surge tank.

Lunch & Learns for Engineers, Contractors and End Users

We have hosted a number of lunch and learn events across Southwestern Ontario covering topics such as Steam Systems, Hydronic Systems, Boiler Room Controls, Product Overviews and specific product sessions as requested by different users and engineering firms. We have a wide variety of boiler room systems and product topics to choose from.

If there is a topic you are interested in and would like us to host a lunch learn at your office or ours, please let us know.
