New from

# Cleaver® Brooks®

**Integrated Package Boiler & Burner Systems**

**Just unveiled at the Cleaver-Brooks Booth at the ASHRAE Show.**

**This boiler won Honourable Mention in new technologies:**

**EXCITING ADVANCEMENTS IN BOILER ROOM TECHNOLOGY AND EQUIPMENT!**

## Clearfire H

The Cleaver-Brooks Clearfire H boiler; An extremely compact firetube is offered from 10-40 HP satisfying low and high pressure steam and hydronic heating requirements. Ideal for small process and/or heating loads burning natural gas or propane.

Multi-purpose design; Exceptional efficiencies (85%) and high turndown (4:1). Key: Revolutionary Alufer tubes (ten times the heat transfer), and the high radiant pre-mix burner with VFD delivering <70 dBA noise levels and <30 ppm NOx emissions as STANDARD.

This highly engineered, very compact package offers lower energy consumption (fuel and electricity), lower emissions and extremely quiet operation while saving considerable floor space when compared to its competition...

**...and it's made right here in Stratford!**

**MORE NEW PRODUCTS AND  
PRODUCT ENHANCEMENTS  
ARE ON THEIR WAY!**

For those who have asked (and everyone else's information)

## LEASING TO OWN IS NOW AVAILABLE!!!

This is on both new equipment sales, installations, as well as on some retrofit applications. This new option allows you the customer a little more flexibility to ensure your heating and steam requirements are being met. Leases of up to 5 years will be available allowing you to spread the costs over a longer period and not impacting your cash flow. If you are presently looking at any boiler room upgrades, retrofits and/or new boiler needs or if we have recently quoted you on equipment – we will be more than happy to provide you with outright purchase price as well as a leasing option.

# AFTERMARKET

Aftermarket – When we refer to aftermarket – we are looking at the continuing needs of you – the customer – for parts and service. We thought we would take a minute to "toot our own horn" and remind you of what service and support we can help you with:

- emergency service response 24 hours a day – 7 days a week – 365 days a year
- factory trained – TSSA Certified – Gas and Oil Fitter qualified service technicians
- over \$ 500,000 in stocked parts including stocked tubes in various lengths for your firetube boilers
- certified pressure vessel welding
- rental boilers
- preventive maintenance contracts
- annual service
- burner and control retrofits
- replacement parts
- spare parts lists
- emission and efficiency testing
- stacking
