CLEAVER-BROOKS CELEBRATES

75 YEARS
IN THE PACKAGED
BOILER BUSINESS

– Cleaver-Brooks –
The Power of Commitment
marks this achievement
along with rebranding

all of their divisions with the CB logo.

Below outlines the new names and logos of the Cleaver-Brooks family of companies.

Along with the new logos – they have also redesigned their webpage.
Check it out at www.cleaver-brooks.com

CLEARFIRE

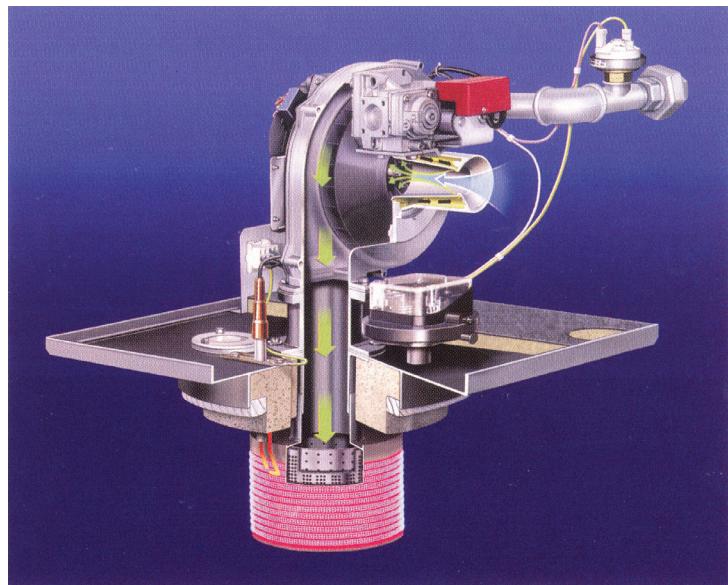

The Clearfire boiler – by Cleaver-Brooks is creating quite a buzz in the industry. The CB commercial Clearfire condensing boiler offers high efficiency/low NOx technology and as such satisfies demands for economy

and environmental protection. Technological advancements including Alufer Tubing, and the Premix modulating burner design enclosed in a stainless steel design ensure high performance and a quality product.

Contact our sales department for a full demonstration of the Clearfire boiler design.

We understand how critical steam can be to your business.

Even with preventative measures such as service contracts and annual service, breakdowns do occur. We have the ability to bring a portable steam right to your door. If you chose to keep in operation while you make changes to your steam plant or an emergency arises, we have a number of units and sizes available for rent.
